Page 9, line 26, INSERT New Finding of Fact: "The Commission disagrees with Staff that a delay in the implementation of the Company's proposed FIT is warranted. The Commission has conducted multiple workshops on the subject of FITs at Arizona utilities, and is nearing completion of a final FIT Policy Statement. Further, the Company has proposed a modest, capped FIT designed as a pilot program, which will offer the Commission the opportunity to make any changes that may be required in the program and will ensure that the costs do not become prohibitive. We will therefore require APS to proceed with its proposed FIT, as part of the APS 2011 Implementation Plan."
